INCOME TAX ACT, 2025

*Easy to Understand.
Easy to Comply.*

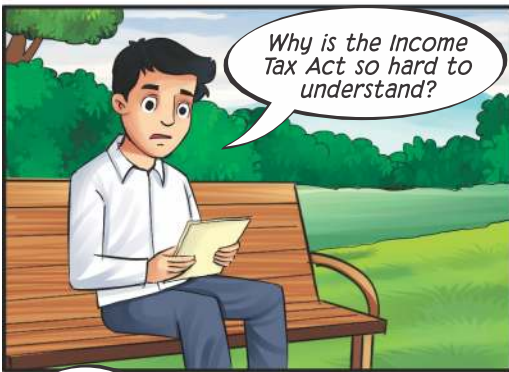

MADHUकर is a thoughtful blend of the words "Madhu"(honey) and "कर" (tax), symbolizing the vital role taxation plays in building and sustaining the nation-just as honey sustains the hive. The bee (MADHUकर) is a powerful symbol of industriousness, community spirit, and precision-qualities that align closely with the ideals of the Income Tax Department. Bees are known for their systematic, collaborative and purposeful work, which mirrors the Department's commitment to efficient, technology-driven services and transparent processes.

MADHUKAR ENTERS

Children looking at Madhukar in awe

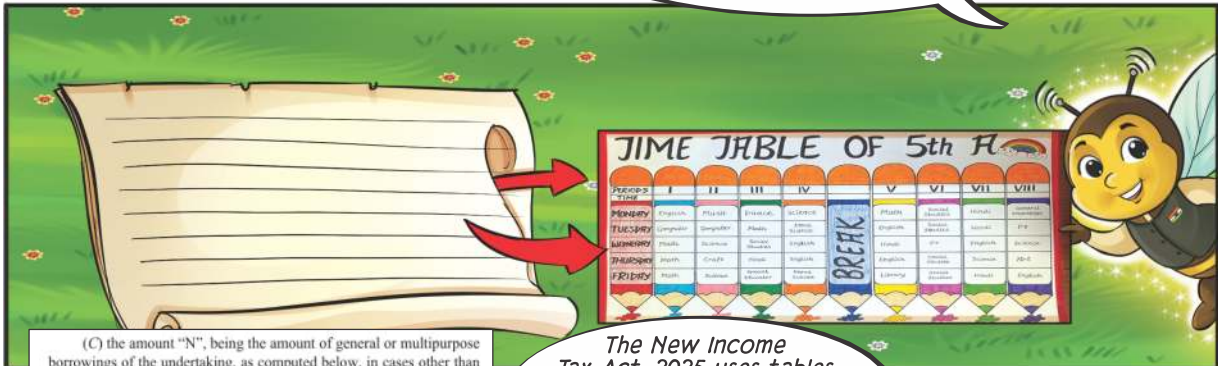

Earlier, tax provisions were written in long paragraphs.

They were hard to read and hard to remember.

Children, imagine your school timetable. If your teacher writes the timetable in one long story, it is confusing. But when it is shown in a table, you understand it quickly.

The New Income Tax Act, 2025 uses tables and formulas. So provisions are easy to read and easy to understand.

Children, imagine entering a classroom where benches are scattered everywhere. Books are lying here and there, and nothing is in its place. Now imagine another classroom—benches neatly arranged, books properly kept, everything easy to find.

That's what has changed here. The structure of the law is now simpler and easy to navigate.

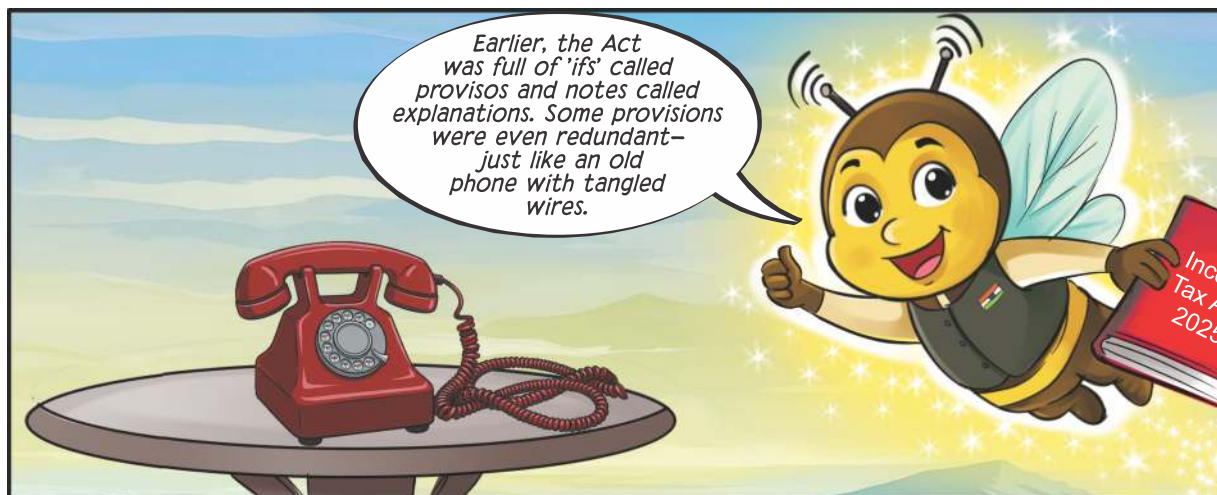

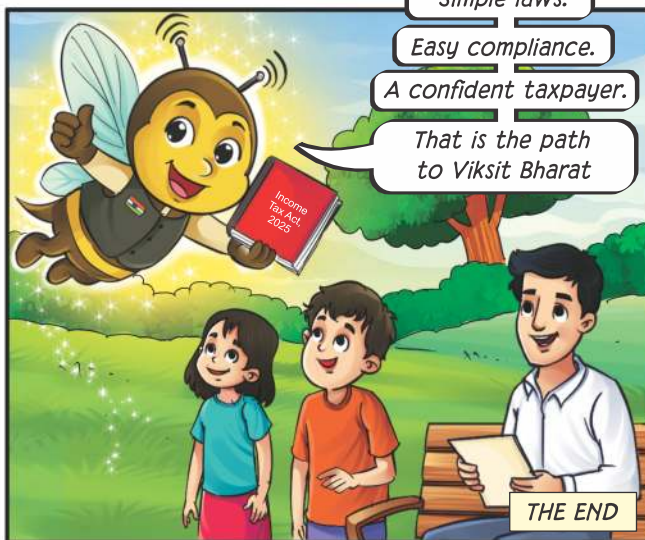

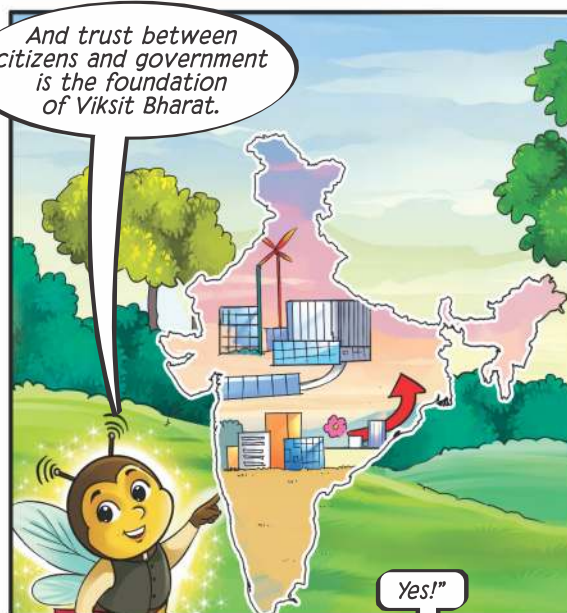

So the structure has changed.

Yes, only structure has changed.
